improved gray pad!

## TO GET IT TO SCRATCH FROM THE START

When you grab a Bear-Tex scuff pad, you want it to grab what you're scuffing. You want it to cut fast and last long. That's what you get with the totally re-designed Bear-Tex pads. The perfect mix of consistently graded grain in a new resin system makes for an amazingly fast cut with a finish that's noticeably better than other pads. What does this mean for you? A super fast cut without wild scratches. Whether using a Bear-Tex maroon pad for an aggressive cut or a Bear-Tex gray pad for a fine scratch, you won't find a better pad.

The competition hasn't even scratched the surface when it comes to performance like this.
