NORTON SOFTTOUCH SPONGES

Norton SoftTouch sanding sponges are specially designed for for hard-to-reach areas like door jambs, headlight openings and around door handles.

NORTON

Norton SoftTouch Sponges Designed with Superior Flexibility for Hand Sanding and Finishing.

SoftTouch contour sanding sponges are coated with a high performance abrasives and a waterproof bond so they can be used wet or dry. They can be used on a variety of materials – metal, glass, composites, and plastic as well as on primer or painted surfaces.

Norton SoftTouch sponges are designed to give needed flexibility for hand sanding without leaving finger marks. Their conformability allows you to generate a superior finish in hard to reach areas and they can be used instead of scuff pads or waterproof sheets.
