## DBD-32X Table Top #9 Rebar Bender

Bends 1-1/8" (#9) grade 60 rebar with only 115 volt-12 amp power.

This heavy-duty portable bender helps to save valuable man-hours by effortlessly bending rebar up to #9 (1-1/8") grade 60 at job sites or in your shop. This strong electrical-mechanical bender has two preset angle locks for repeating the same angle bend. The lever-type angle selector can be set to accurately bend any angle from 0-180 degrees. Bends (4) each #3 rebar, (3) each #4 rebar, (2) each #5 or #6 rebar, and (1) each #7, #8, and #9 rebar at one time. The roller chart makes it easy to select the correct combination of rollers to achieve a bending radius a minimum of five times the rebar diameter except for #9 rebar. A bend counter with reset, a voltage meter, and two lifting handles are standard features. The DBD-32X portable rebar bender comes complete with set of (7) bending rollers in two steel carrying cases, a tool kit, a bender plastic cover, and a standard foot pedal control switch for hands-free bending. Optional stand only #BCS-32X or combination stand for mounting a rebar cutter #BCSE-32X. One-year parts and labor warranty included.

Specifications for DBD-32X Heavy-Duty Table-Top Rebar Bender	
Maximum rebar bending diameter	#9 (1-1/8") (29mm) Grade 60
Bending Angle	0 – 180 degrees
Bending Speed	8 Seconds for 180 degree bend
Power Supply	115V 50/60Hz -12 amps
Weight (kg)	397 lbs. (180 kg)
Dimensions (mm)	23.0" L (590) x 24.2" W (620) x 18.7" H (480)
