Bend Rebar In Place!

The HB-16W #5 (5/8") 60 Grade Rebar Bender

90 degree shoe
and collar set

This tool features top-quality manufacturing, a safety pressure relief valve, a precision-balanced armature, a double-insulated electric motor and a locking trigger switch.

The HB-16W portable heavy-duty electric/hydraulic rebar bender helps save valuable man-hours by bending rebar up to 5/8" (#5) grade 60 from 0-135 degrees in-place at the job site. Other features include a double insulated electric motor and a removable bending guide for repeating the same angle bend. A standard 90 degree bending shoe and collar set make it simple to repeat 90 degree bends without a guide. The removable bending collar increases the bending radius and minimizes rebar breakage, especially on #5 grade 60. This portable electric/hydraulic rebar bender ships complete in a steel carrying case with hydraulic oil and a tool kit. Solves bending applications other tools can't even attempt.

Specifications for the HB-16W Rebar Bender

Maximum Bending Diameter	5/8" #5 Rebar (16mm) - Grade 60
Bending Angle / Speed	0 - 135 degrees / 8 Seconds
Voltage/ Amperage	115V 50/60Hz / 10 amps
Tool Weight	33 lbs (15 kg)
Dimensions L x W x H	22.8" (584mm) x 7.6" (195mm) x 8" (205mm)
