PRODUCT DATA SHEET Sika[®] Armatec[®] 10 ZR

ONE-COMPONENT, MIO-ZINC PRIMER FOR STEEL REINFORCEMENT

PRODUCT DESCRIPTION

Sika[®] Armatec[®] 10 ZR is a one-component, moisturecured primer modified with zinc, to provide protection against corrosion for reinforcing steel.

USES

As an anti-corrosion primer applied directly onto mechanically prepared reinforcing steel surfaces.

CHARACTERISTICS / ADVANTAGES

- Single component; easy to use
- Excellent adhesion to steel
- High zinc content to protect reinforcing steel from corrosion
- Higher bond strength
- Long application life
- Brush apply or spray apply.
- Compatible with cementitous repair mortars and concrete.
- Interior and exterior applications

PRODUCT INFORMATION

Chemical Base	Mio-Zinc, Aromatic Polyurethane		
Packaging	1 quart (0.95 liter) can 9 cans/box		
Appearance / Color	Greenish-gray liquid		
Shelf Life	 12 months from date of production when stored properly in original, unopened and undamaged, sealed packaging. Store dry at 20° - 110° F (-7° - 43° C). Condition Sika® Armatec® 10 ZR to 35° 95° F (2° - 35° C) prior to use. Protect from moisture. 		
Storage Conditions			
Solid content by weight	Approximately 61% ± 2%		
SYSTEM INFORMATION			

System Structure	Corrosion test - Salt spray (FOG)				
	10,250 hrs	No cracking or delamina- tion of film No more than 3% rusting on plane	ASTM B 117		

Product Data Sheet Sika® Armatec® 10 ZR November 2018, Version 01.01 020302020040000005

APPLICATION INFORMATION

Coverage	70 - 100 ft ² (6.5 - 9.3 m ²) per unit; approximately 3 mils dry film thickness (DFT) per coat (Coverage rates do not include allowance for surface profile or material waste.)				
Layer Thickness	1 coat application	Minimum	Maximum		
	Wet film	3.5 mils (90 μm)	5.5 mils (140 μm)		
	Dry film	2.5 mils (65 μm)	4.0 mils (100 μm)		
Ambient Air Temperature	35°- 120 °F (2° - 49° C)				
Relative Air Humidity	Minimum 20% / Maximum 90%				
Substrate Temperature	35° - 120° F (2° - 49° C) Steel temperature should be at least 5° F (3° C) above the measured dew point temperature.				
Pot Life	 24 hours at 77° F (25° C) and 50% R.H. This is a moisture cure product. Presence of moisture after opening and during use will shorten application time. When feasible, keep containers of material covered during use. 				
Waiting / Recoat Times	50% Relative Humidit	y Overco	Overcoating		
	75° F (24° C) 1.5 hot		Jrs		
	70° F (21° C) 2 hours		i		
	65° F (18° C) 2.75 hours		urs		
	60° F (15° C)	4 hours	4 hours		
	55° F (13° C)	5 hours	5 hours		
	 When recoating Sika[®] Armatec[®] 10 ZR with itself, the minimum recoat times 2 hours at 70°F (21°C). Do not leave the primed surfaces uncovered for longer than 7 days before applying cementitious repair materials or concrete. * Tack Free times will vary with surface temperature, humidity and film thickness. Allow Sika[®] Armatec[®] 10 dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is appled to dry for the touch before the repair mortar or concrete is appled to dry for the touch before the repair mortar or concrete is appled to dry for the touch before the repair mortar or concrete is appled to dry for the touch before the repair mortar or concrete is appled to dry for the touch before the repair mortar or concrete is appled to dry for the touch before the repa				

APPLICATION INSTRUCTIONS

SURFACE PREPARATION

- Rust, scale, mortar, concrete, dust and other loose and deleterious material which reduces bond or contributes to corrosion shall be removed by blast cleaning or other means of mechanical abrasion and reinforcement.
- Steel surfaces should be fully exposed with all corrosion mechanically removed.
- Mask off and protect surrounding concrete surfaces. Apply Sika[®] Armatec[®] 10 ZR only to mechanically prepared rebar.
- Refer to International Concrete Repair Institute (ICRI) Technical Guideline #310.1R, the "Guideline for Surface Preparation for the Repair of Deteriorated Concrete Resulting from Reinforcing Steel Corrosion" for further information.

MIXING

 Sika[®] Armatec[®] 10 ZR must be stirred or shaken thoroughly before application.

APPLICATION

- Use a 3/8" (10 mm) nap roller or a round brush.
- Apply one coat (5 mils wet film thickness) onto a dry, rust-free surface.
- Take special care to properly coat the underside of the totally exposed, mechanically prepared steel.
- Allow Sika[®] Armatec[®] 10 ZR to dry for a minimum of 1.5 hours (or Tack Free to the touch) before the repair mortar or concrete is applied.
- Pour or place cementitious repair mortar or concrete within 7 days maximum.
- Sika[®] Armatec[®] 10 ZR can also be spray applied with either air spray or airless spray equipment, Contact Technical Services for additional information.

CURING TREATMENT

 Sika[®] Armatec[®] 10 ZR must be protected against contamination until installation of the cementitious repair mortar or concrete.

CLEANING OF TOOLS

Clean all tools and application equipment with approved solvent (e.g. Acetone, MEK or Xylene) immediately after use, before Sika[®] Armatec[®] 10 ZR dries.

LIMITATIONS

Product Data Sheet Sika® Armatec® 10 ZR November 2018, Version 01.01 020302020040000005

- Avoid application when strong winds prevail, and/or while raining or snowing.
- Do not add water.
- Apply only to dry, mechanically prepared, rust-free steel reinforcement substrates.
- Mask off and protect surrounding concrete surfaces.

BASIS OF PRODUCT DATA

Results may differ based upon statistical variations depending upon mixing methods and equipment, temperature, application methods, test methods, actual site conditions and curing conditions.

OTHER RESTRICTIONS

See Legal Disclaimer.

ENVIRONMENTAL, HEALTH AND SAFETY

For further information and advice regarding transportation, handling, storage and disposal of chemical products, user should refer to the actual Safety Data Sheets containing physical, environmental, toxicological and other safety related data. User must read the current actual Safety Data Sheets before using any products. In case of an emergency, call CHEMTREC at 1-800-424-9300, International 703-527-3887.

LEGAL DISCLAIMER

- KEEP CONTAINER TIGHTLY CLOSED
- KEEP OUT OF REACH OF CHILDREN
- NOT FOR INTERNAL CONSUMPTION
- FOR INDUSTRIAL USE ONLY
- FOR PROFESSIONAL USE ONLY

Prior to each use of any product of Sika Corporation, its subsidiaries or affiliates ("SIKA"), the user must always read and follow the warnings and instructions on the product's most current product label, Product Data Sheet and Safety Data Sheet which are available at usa.sika.com or by calling SIKA's Technical Service Department at 800-933-7452. Nothing contained in any SIKA literature or materials relieves the user of the obligation to read and follow the warnings and instructions for each SIKA product as set forth in the current product label, Product Data Sheet and Safety Data Sheet prior to use of the SIKA product.

SIKA warrants this product for one year from date of installation to be free from manufacturing defects and to meet the technical properties on the current Product Data Sheet if used as directed within the product's shelf life. User determines suitability of product for intended use and assumes all risks. User's and/or buyer's sole remedy shall be limited to the purchase price or replacement of this product exclusive of any labor costs. **NO OTHER WARRANTIES EXPRESS OR IMPLIED SHALL AP-PLY INCLUDING ANY WARRANTY OF MERCHANTABIL-**
