Many colors are specifically designed to match the most popular siding colors of the

leading siding material manufacturers. Please contact us at 1.800.877.4583 or email us at contechserv@franklininternational.com for questions or additional information.

Product availability is subject to change without notice. Color samples are produced by a printing process that may result in slight color variations. For critical color matching, apply sealant to a sample of the substrate, prior to use. It is the responsibility of the user to determine suitability of the product for the particular substrate. Colors are best viewed in natural light.
