

## Product Description

Tremco systems featuring polyurethane-methacrylate (PUMA) technology provide superior elongation over traditional MMA/PMMA technology systems. A component of the Vulkem® EWS and select TREMproof® PUMA systems, Tremco PUMA TC (top coat) affords excellent abrasion resistance, UV stability and chemical resistance.

# TREMCO® PUMA Top Coat Color Chart

For Tremco Systems with Polyurethane-Methacrylate Technology

## UNIVERSAL COLOR PAK COLORS (Continued)

\* For use with decorative aggregate.

<sup>1</sup> FAA White (17925) and FAA Yellow (13538) colors match Federal Standard 595C color specifications.

<sup>2</sup> Compatible with Tremco PUMA Top Coat (TC) Tintable at up to 3 paks per 6 gallon unit. If custom colors are needed, Tremco can custom color match with Universal Color Paks.

All colors shown are approximate and may not reflect sheen or shade precisely, as varying amounts of aggregate will alter light-reflecting properties. Tremco always recommends a test patch to gain final color approval. Different lighting conditions can influence color appearance: for truer color please view in daylight. Some colors may require a minimum quantity. Custom colors are available upon request. Contact Tremco Customer Service for more information.
