

SPECIFICATIONS

Product Description: **LID LIFTER, MANHOLE**
Part Number: **9401-20**
Style: **HOOK**

GENERAL DESCRIPTION:

The toughest manhole covers are easy to move with this one-piece lifter. It features a long all-steel handle that provides useful leverage when removing and replacing manhole covers. To help with storage, the hook recesses and locks into pole.

CONSTRUCTION:

- 21" (53.3 cm) all steel alloy hook
- Heat treated steel for strength
- Hardened cadmium-plated to reduce rusting
- Lockable hook for convenient storage
- Rubber grip on handle
- Rubber foot to minimize slippage
- Support leg angled 6" (15.2 cm) for leverage

LIFTING CAPACITY

- 300 lb.

TENSILE STRENGTH (of the hook):

- 6000 Kgf-cm (max torque)
