LEVITON®

Plug-in Dimmer with Wi-Fi Technology

decora smart™

GOOGLE ASSISTANT VOICE CONTROL
"Ok Google, turn [My Leviton device name] On". Works with the Google Assistant. Google Home is a voice enabled speaker powered by the Google Assistant. Easily control smart devices around the home. (Google Assistant devices sold separately).

LOW-WATTAGE LED LOADS
The new lighting control accessories are engineered to function with extremely sensitive, low-wattage light sources, such as a single LED bulb in a hallway or a strand of holiday lights, ensuring LEDs do not glow when off.

APPLICATIONS
Schedule or dim your plug-in lamps from anywhere. Control connected loads and lights using the free My Leviton app for iOS and Android, no hub required. Simplify control of the residence – schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group smart devices into rooms, and create scenes to activate multiple lights at once. Works with Nest® and integrates with IFTTT. Utilize auto-shutoff feature as a countdown timer in closets, hallways and bathrooms. Engage home vs. away to enact randomization of lighting control, providing a lived-in appearance.

Customize your experience with adjustable fade rates, maximum/minimum illumination levels, and more if desired. Supports LED and CFL technologies up to 100 Watts along with support for legacy incandescent lighting loads up to 300 Watts. Reduce energy consumption, provide dramatic scene transitions, and utilize the wireless affordable plug-in for table and floor lamps.

AMAZON ALEXA VOICE CONTROL
Compatible with all products that support Amazon Alexa providing voice control of the load: "Alexa, dim living room lights to 25%". Alexa devices sold separately.

WORKS WITH NEST®
Add lighting control to your Nest eco-system. Turn Leviton lights on if a Nest Cam™ detects motion in an area. Adjust Leviton lights based on when Nest says you are home or away. Set illumination time durations and even "blink" all lights during an emergency situation.
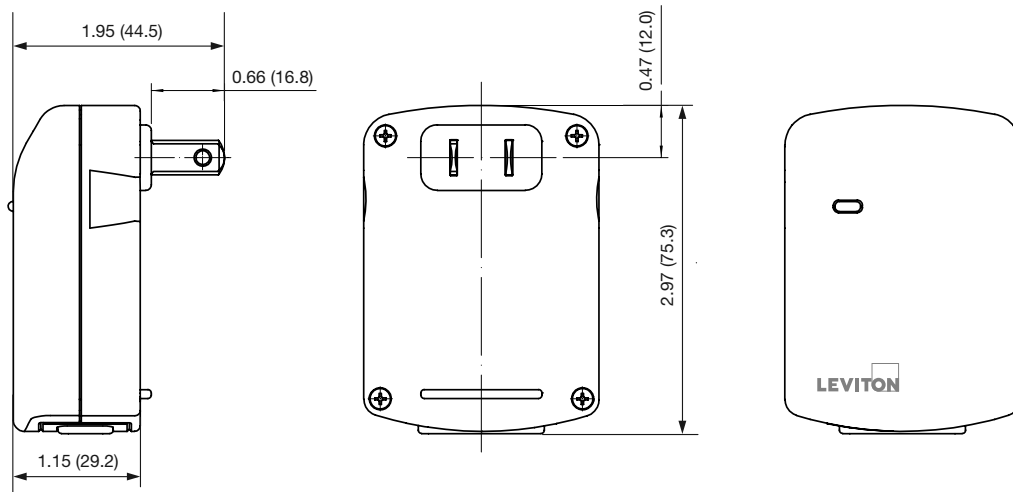

BENEFITS
- Control your lights from anywhere using the free My Leviton app for iOS and Android, no hub required.
- Amazon Alexa products provide voice control: "Alexa, turn on living room lights".
- Works with Google Assistant including Google Home for voice control. "Ok Google, set [My Leviton device name] to [1-100]%"
- Works with Nest – for instance – turn on a light when camera detects motion, an alarm goes off, or when Nest says you are Home or Away
- Integrate with IFTTT for additional third-party functionality
- Simplify control of your home - schedule lights and connected loads to turn on/off at specific times or based on sunrise/sunset, easily group your smart devices into rooms, and create scenes to activate multiple lights at once.
- Control up to 99 devices, 50 schedules, 50 activities, 50 scenes, 50 rooms, and 20 residences within the My Leviton app

FEATURES
- Button for manual control and dimming
- Transient surge protection to IEC Level 4
- ESD protection to IEC 1000 4-2 Level 4 to protect against damage
- Green LED locator
- Provides polarized 300W-120VAC NEMA 5-15R receptacle
- Provides manual ON/OFF
- Provides ON/OFF scene and zone control compatibility 2-way status updates
- Protected memory maintains ON/OFF status of loads during minor power fluctuations
