

lev-lok® Modular Wiring Devices

15A & 20A, 125V Illuminated Receptacles
Extra Heavy Duty Hospital Grade

INDUSTRY
EXCLUSIVE!!!

The Lev-Lok line of hospital grade wiring devices has expanded with the introduction of our new Extra Heavy Duty Illuminated Receptacles. The illuminated face makes it easy to identify energized receptacles in both light and dark conditions, making them ideal for use on emergency circuits. They are available in both a traditional duplex configuration and an industry exclusive tamper-resistant version, satisfying National Electric Code (NEC) requirements for safety while at the same time confirming power to the receptacle.

Plus, the Lev-Lok Modular Wiring Device System speeds the installation, providing for faster, safer installation both during construction as well as at device change-out.

Features and Benefits:

- Industry exclusive Tamper-Resistant versions available
- Nickel-plated brass single-piece, wrap-around mounting strap with integral ground contacts, for conductivity and secure ground path
- Distinctive Green LED illuminated blade slots allows for easy power indication
- Constructed with impact-resistant thermoplastic nylon, assuring durability of the device
- Extra heavy duty triple wipe "T" contacts provide superior plug retention force to meet the rugged plug demands found in healthcare environments
- Grounding clip permanently secured to strap makes for most reliable ground connection
- Smooth face prevents dirt from collecting and makes cleaning faster and simpler

Features & Benefits

■ Green LED illuminated blade slots allow for easy power indication; LED rated for 100,000 hours

■ Tamper resistant versions feature a shutter mechanism inside the receptacle to block access to the contacts unless a two-prong plug is inserted

■ Grounding clip permanently secured to strap makes for most reliable ground connection

■ Smooth receptacle face makes cleaning faster and simpler

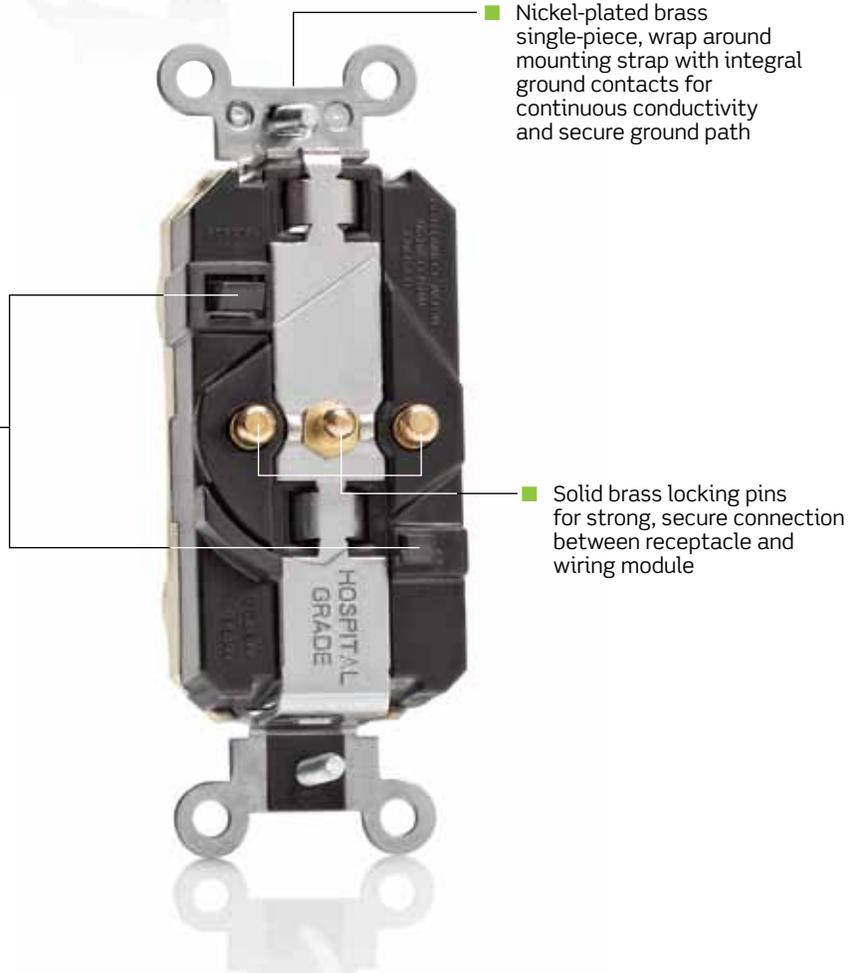

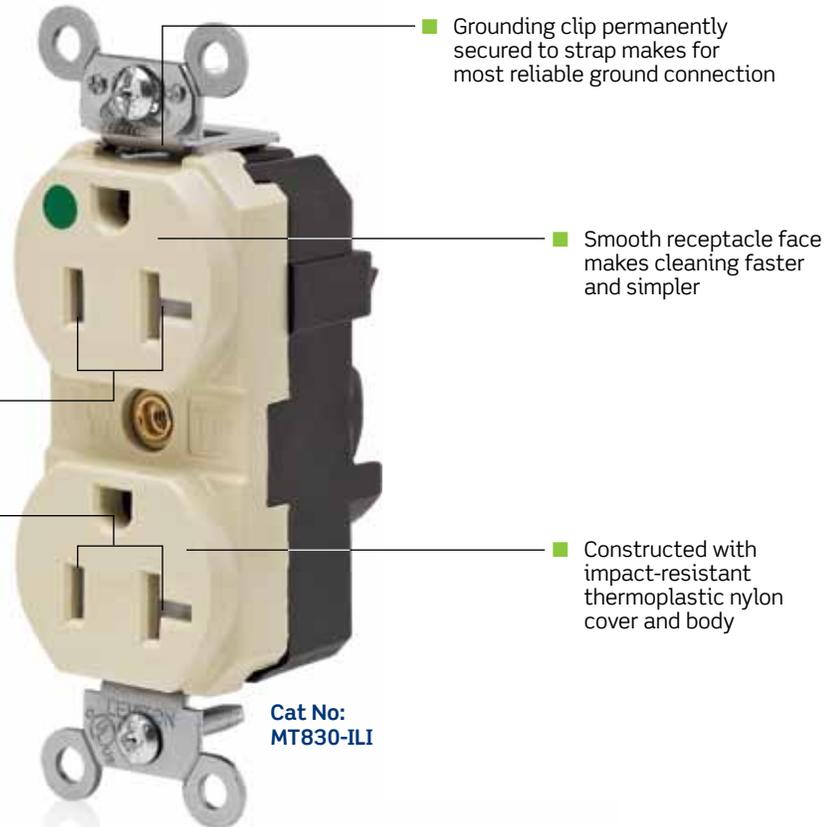

■ Constructed with impact-resistant thermoplastic nylon cover and body

Cat No:
MT830-ILI

■ Two latches mate with wiring module for twice the security

■ Nickel-plated brass single-piece, wrap around mounting strap with integral ground contacts for continuous conductivity and secure ground path

■ Solid brass locking pins for strong, secure connection between receptacle and wiring module

Specifications

Electrical Specifications	
Amp or Amperage	15A or 20A
Voltage	125 Volt
NEMA	5-15R or 5-20R
Pole	2
Wire	3
Grounding	Self-Ground Clip
Dielectric Voltage	Withstands 2000V per UL 498
Current Limiting	Full Rated Current
Temperature Rise	Max 30°C after 250 cycles of overload at 200% of rated current
Illumination	100,000 HR Green LED's

Material Specifications	
Body Material	Nylon
Face Material	Nylon
Strap Material	Nickel Plated Brass
Line Contacts	0.040" Brass
Locking Pins	Solid Brass
Ground Clip	Brass
Shutter Mechanism (TR versions only)	Derlin® Acetal

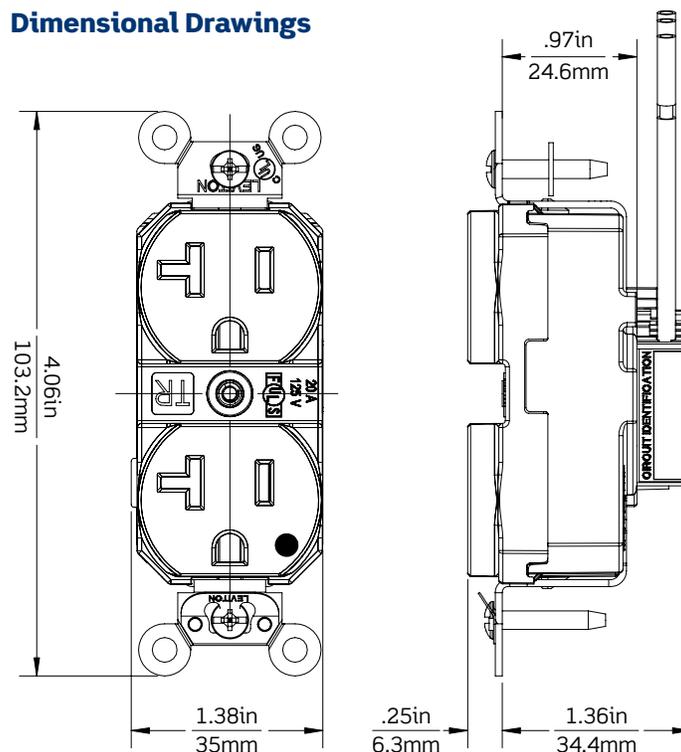

Mechanical Specifications	
Lead Identification	Leads identified in accordance with UL498 (black, white, & green)
Product ID	Markings are permanently marked on device

Standards and Certifications	
NEMA	WD-6
ANSI	C-73
UL 498 & Fed Spec WD496	E13399
CSA	152105
NOM	057
Warranty	10-Year Limited
RoHS	Compliant

Environmental Specifications	
Flammability	Rated V2 Per UL 94
Operating Temperature	-40C To 60C

AC Horsepower Ratings	
Horsepower Rating	15A-1/2 HP; 20A-1 HP

Dimensional Drawings
