### **1 WARNINGS**

### Safety Instructions

Failure to follow the safety instructions can result in risk of death, injuries and damage to the device. The producer assumes no liability for claims resulting from this.

### Electrical hazard!

- The installation, commissioning and maintenance of the charging station may only be performed by correctly trained, qualified and authorized electricians who are fully responsible for the compliance with existing standards and installation regulations. Observe the instructions given for selecting the location and the constructional requirements.
- If the specifications for the location are not observed, this can result in death, serious physical injury or equipment damage if the corresponding precautionary measures are not met.
- The back-to-back pedestal must always be fitted with two charging stations.

### Use of this manual

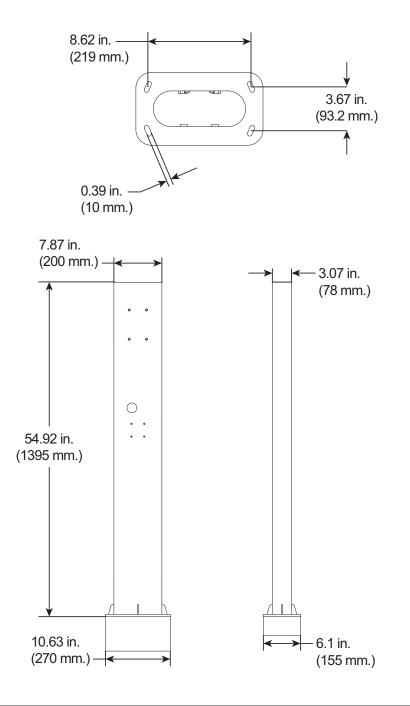

This installation manual is intended for qualified personnel only. You must adhere to the information information and instructions in the manual about selecting the location, installation, and connection of the charging station.

### 2.1 Making Drill Holes

- 1. Mark four (4) holes on the concrete foundation using the base-plate of the pedestal. Make sure that the connection cable is located precisely underneath the opening in the base-plate.
- 2. Drill four (4) mounting holes:

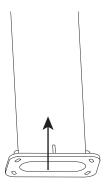

Diameter: 0.39 in. (10 mm.) Drill-hole minimum depth: 3.31 in. (84 mm.)

3. Hammer the anchors (not included) so that they are flush with the floor.

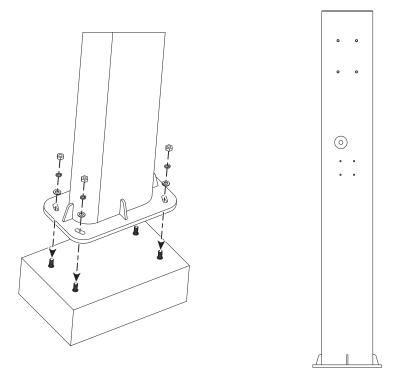

## 2.2 Thread in Cable

1. Thread the connection cables from the bottom through the pedestal upwards through the cable opening.

# 2.3 Anchoring

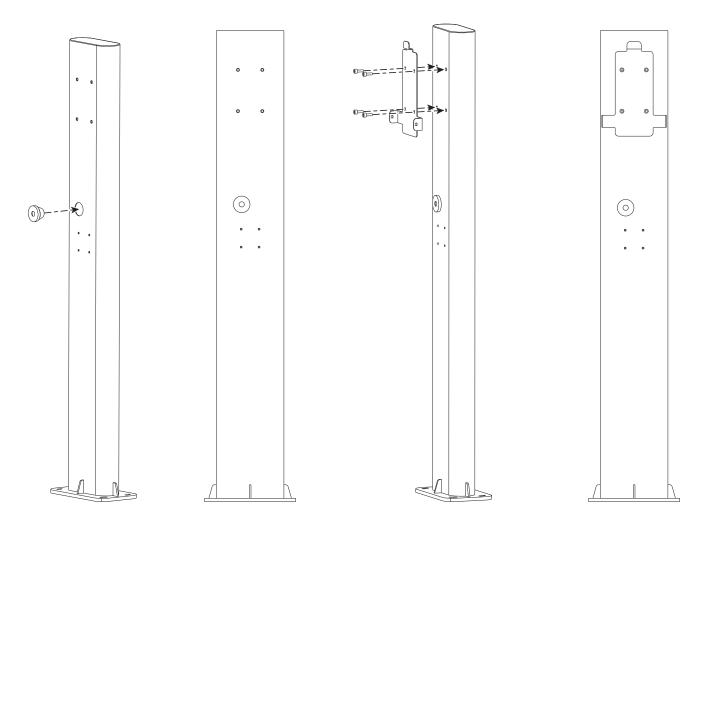

- 1. Position the pedestal directly over the cable outlet.
- 2. Anchor the pedestal to the foundation using four (4) sets of M8 nut, M8 flat washer, M8 spring washer.

**NEB VERSION** 

### 2.4 Bracket Installation

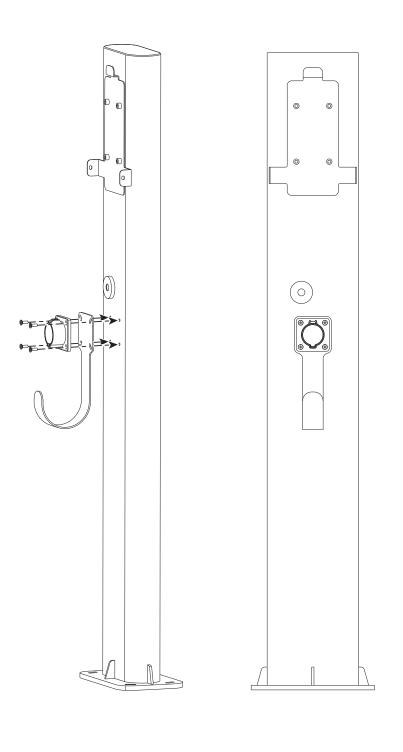

- 1. Insert the cable gland into the pedestal.
- 2. Install the mounting plate to the pedestal with screws provided.

**VEB VERSIOI** 

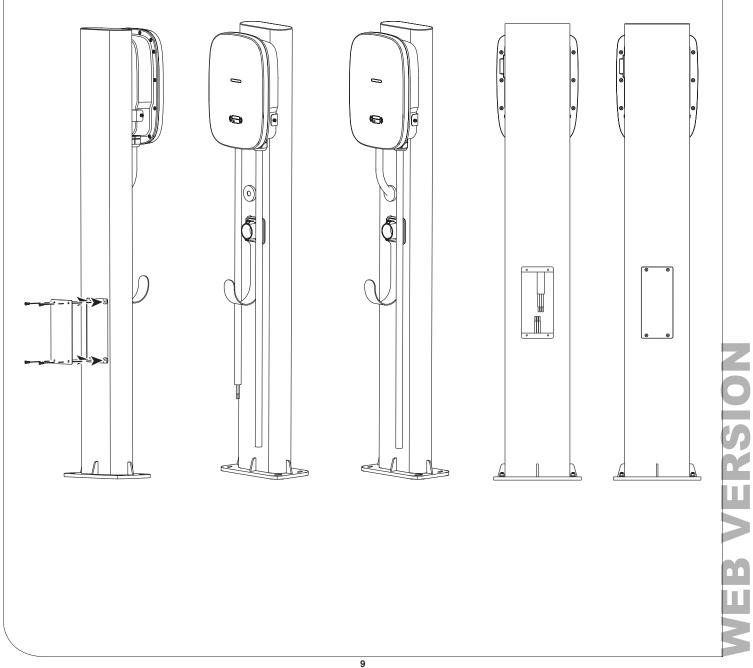

# 2.5 Connector Base and Hook Installation

1. Use four (4) of M5 x 22 mm. screws to fix the connector base and hook in the corresponding position.

## 2.6 Mounting and Connecting the Charging Station

- 1. Mount the charging stations on the pedestal using two (2) M5 x 12 mm. screws on both sides of the charger.
- 2. Release the four (4) M5 x 12 mm. screws from the wiring window at the back.
- 3. Thread the connection cables from the bottom, through the pedestal, upwards through the cable opening.
- 4. Perform the electrical connection and commissioning in accordance with their instructions.
- 5. Fix the four (4) M5 x 12 mm. screws to finish the installation.

### **3 FCC AND WARRANTY**

### FCC STATEMENT:

This device complies with Part 15 of the FCC Rules and ISED License-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by Leviton could void the user's authority to operate the equipment.

These limits are designed to provide reasonable protection against harmful interference in a commercial installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This Class A digital apparatus complies with Canadian CAN ICES-3(A)/NMB-3(A)

### FCC SUPPLIER'S DECLARATION OF CONFORMITY:

This device manufactured by Leviton Manufacturing Co., Inc. 201 North Service Road, Melville, NY 11747. www.leviton.com. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
