

SmartlockPro[®] Slim GFCI with Switch

Smart Combination: SmartlockPro[®] Slim GFCI/Switch

Get the highest level of ground fault protection and make the most of a one-gang space with the Leviton SmartlockPro Slim GFCI/Switch combination device. This device easily replaces a standard receptacle/switch combination in rooms that require GFCI protection. Paired with a single pole switch, the SmartlockPro receptacle offers patented lockout action that blocks RESET if GFCI protection has been compromised. The slim profile is compact and easy to install in any wallbox, even shallow ones.

- Ideal in kitchens, bathrooms and laundry rooms
- Saves space wherever GFCI protection and a switch is needed
- Designed for new or retrofit residential or light commercial interiors

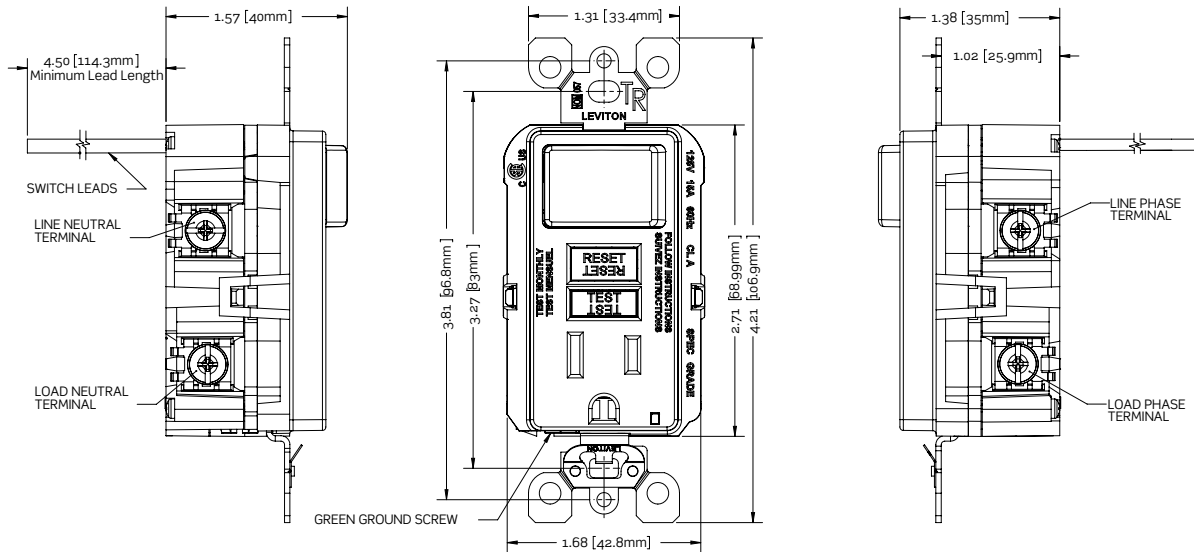

Features and Benefits

- Single receptacle GFCI with switch saves space and adds convenience
- Fits standard wallboxes
- TEST / RESET buttons match device color
- Dual function LED indicator light – provides indication of wiring error and power availability
- Replaces standard switch/receptacle combination devices to add GFCI protection in residential or light commercial installations
- Permits multiple wiring options that allow for GFCI protection of switched load and downstream receptacles
- Impact resistant face and body
- Standard brass self-grounding clip
- Limited Two-Year Warranty

Agency Standards

- GFCI: UL 943, CSA-C22.2 No. 144.1-06 Class A
- Receptacle: UL 498, CSA-C22.2 No. 42
- Switch: UL 20, CSA-C22.2 No. 111
- cCSAus Certified (File # LR-57811)
- NOM Certified (#057)
