| 2. Hazard(s) identification      |   |            |  |
| Physical hazards                 | Flammable liquids   | Category 4 |  |
| Health hazards                   | Aspiration hazard   | Category 1 |  |
| Environmental hazards            | Not classified.   |            |  |

Not classified.

|  | ▼   |
|--|---|
| Signal word                                  | Danger  |
| Hazard statement                             | Combustible liquid. May be fatal if swallowed and enters airways.   |
| Precautionary statement                      |   |
| Prevention                                   | Keep away from flames and hot surfaces-No smoking. Wear protective gloves/eye protection/face protection.                               |
| Response                                     | If swallowed: Immediately call a poison center/doctor. Do NOT induce vomiting. In case of fire:<br>Use appropriate media to extinguish. |
| Storage                                      | Store in a well-ventilated place. Keep cool. Store locked up.   |
| Disposal                                     | Dispose of contents/container in accordance with local/regional/national/international regulations.                                     |
| Hazard(s) not otherwise<br>classified (HNOC) | Combustible.  |
| Supplemental information                     | None known.   |
|  |   |

# 3. Composition/information on ingredients

### Mixtures

| Chemical name                               | Common name and synonyms | CAS number | %       |
|---|--------------------------|------------|---------|
| Distillates Petroleum Hydrotreated<br>Light |                          | 64742-47-8 | 70 - 80 |

| Chemical name  | Common name and synonyms  | CAS number                        | %                     |  |
|--|---|-----------------------------------|-----------------------|--|
| Petroleum Oil  |   | 64742-52-5                        | 20 - 30               |  |
| 4. First-aid measures  |   |                                   |                       |  |
| nhalation  | Move to fresh air. Call a physician if symptom  | s develop or persist.             |                       |  |
| Skin contact   | Wash off with soap and water. Get medical at  | tention if irritation develops ar | nd persists.          |  |
| Eye contact  | Rinse with water. Get medical attention if irrita   | tion develops and persists.       |                       |  |
| ngestion   | Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.   |                                   |                       |  |
| Nost important<br>symptoms/effects, acute and<br>lelayed                   | Aspiration may cause pulmonary edema and pneumonitis. Direct contact with eyes may cause temporary irritation.  |                                   |                       |  |
| ndication of immediate<br>nedical attention and special<br>reatment needed | Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.  |                                   |                       |  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.  |                                   |                       |  |
| 5. Fire-fighting measures  |   |                                   |                       |  |
| Suitable extinguishing media   | Water fog. Alcohol resistant foam. Dry chemic   | al powder. Dry chemicals. Ca      | urbon dioxide (CO2).  |  |
| Jnsuitable extinguishing<br>nedia  | Do not use water jet as an extinguisher, as the   | s will spread the fire.           |                       |  |
| Specific hazards arising from<br>he chemical                               | The product is combustible, and heating may mixtures. During fire, gases hazardous to heat  |                                   | orm explosive vapor/a |  |
| Special protective equipment<br>and precautions for firefighters           | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.   |                                   |                       |  |
| Fire fighting<br>equipment/instructions                                    | In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can a so without risk. Cool containers exposed to heat with water spray and remove container, if no ris is involved.   |                                   |                       |  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.  |                                   |                       |  |
| General fire hazards   | Combustible.  |                                   |                       |  |
| 6. Accidental release meas   | sures   |                                   |                       |  |
| Personal precautions,<br>protective equipment and<br>emergency procedures  | Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Elimina ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Ensure adequate ventilation. Local author should be advised if significant spillages cannot be contained. Use personal protection recommended in Section 8 of the SDS. |                                   |                       |  |
| Methods and materials for<br>containment and cleaning up                   | Use water spray to reduce vapors or divert va<br>smoking, flares, sparks, or flames in immedia<br>away from spilled material.   |                                   |                       |  |
|  | Large Spills: Stop the flow of material, if this is possible. Use a non-combustible material like and place into a container for later disposal. F  | vermiculite, sand or earth to     | soak up the product   |  |
|  | Small Spills: Absorb with earth, sand or other for later disposal. Clean surface thoroughly to  |                                   |                       |  |
|  | Never return spills to original containers for re   | •                                 | section 13 of the SE  |  |
| Environmental precautions  | Avoid discharge into drains, water courses or   | onto the ground.                  |                       |  |
| 7. Handling and storage  |   |                                   |                       |  |
| Precautions for safe handling  | Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke.<br>Avoid prolonged or repeated contact with skin. Avoid prolonged exposure. Use only in<br>well-ventilated areas. Wear appropriate personal protective equipment. Wash hands thoroughly<br>after handling. Observe good industrial hygiene practices.  |                                   |                       |  |
| Conditions for safe storage,<br>ncluding any incompatibilities             | Store locked up. Keep away from heat and sources of ignition. Store in a cool, dry place ou direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Kee area equipped with sprinklers. Store away from incompatible materials (see Section 10 of th SDS).  |                                   | ilated place. Keep in |  |

### 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| U.S OSHA<br>Components  | Туре  | Value           | Form                 |  |
|---|---|-----------------|----------------------|--|
| Distillates Petroleum<br>Hydrotreated Light (CAS<br>64742-47-8) | PEL   | 5 mg/m3         | Oil mist             |  |
| Petroleum Oil (CAS<br>64742-52-5)                               | PEL   | 5 mg/m3         | Oil mist             |  |
| White Mineral Oil (CAS 8042-47-5)                               | TWA   | 5 mg/m3         | Oil mist.            |  |
| ACGIH   | Time  | Value           | Form                 |  |
| Components  | Туре  | Value           | -                    |  |
| Distillates Petroleum<br>Hydrotreated Light (CAS<br>64742-47-8) | TWA   | 5 mg/m3         | Oil mist             |  |
| Petroleum Óil (CAS<br>64742-52-5)                               | TWA   | 5 mg/m3         | Oil mist             |  |
| White Mineral Oil (CAS 8042-47-5)                               | TWA   | 5 mg/m3         | Respirable fraction. |  |
| US. ACGIH Threshold Lim   |   | N.L.            |                      |  |
| Components  | Туре  | Value           |                      |  |
| 2-Methyl Butyl Acetate<br>(CAS 624-41-9)                        | STEL  | 100 ppm         |                      |  |
|   | TWA   | 50 ppm          |                      |  |
| U.S NIOSH   | _   |                 | -                    |  |
| Components  | Туре  | Value           | Form                 |  |
| White Mineral Oil (CAS 8042-47-5)                               | TWA   | 5 mg/m3         | Mist.                |  |
| ological limit values   | No biological exposure limits noted for the ingredient(s).  |                 |                      |  |
| propriate engineering<br>ntrols                                 | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |                 |                      |  |
| dividual protection measure                                     | s, such as personal protective equipm   | nent            |                      |  |
| Eye/face protection   | Wear safety glasses with side shield  | s (or goggles). |                      |  |
| Skin protection<br>Hand protection                              | Wear appropriate chemical resistant gloves.   |                 |                      |  |
| Other   | Wear suitable protective clothing.  |                 |                      |  |
| Respiratory protection  | If engineering controls do not maintain airborne concentrations below recommended exposure  |                 |                      |  |
|   | If engineering controls do not maintain airborne concentrations below recommended exposure<br>limits (where applicable) or to an acceptable level (in countries where exposure limits have not<br>been established), an approved respirator must be worn.   |                 |                      |  |
| Thermal hazards   | Wear appropriate thermal protective clothing, when necessary.   |                 |                      |  |
| eneral hygiene<br>nsiderations                                  | When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.  |                 |                      |  |

| VOC  | 0 % per US State & Federal Consumer Product Regulations |  |  |
| 10. Stability and reactivity               |   |  |  |

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport.  |
|---------------------------------------|--|
| Chemical stability                    | Material is stable under normal conditions.  |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.  |
| Conditions to avoid                   | Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials. |
| Incompatible materials                | Strong oxidizing agents.   |
| Hazardous decomposition<br>products   | Carbon oxides.   |

# 11. Toxicological information

### Information on likely routes of exposure

| Inhalation   | Prolonged inhalation may be harmful.   |
|--|--|
| Skin contact   | No adverse effects due to skin contact are expected.   |
| Eye contact  | Direct contact with eyes may cause temporary irritation.   |
| Ingestion  | Droplets of the product aspirated into the lungs through ingestion or vomiting may cause a serious chemical pneumonia. |
| Symptoms related to the physical, chemical and toxicological characteristics | Aspiration may cause pulmonary edema and pneumonitis.  |
| Information on toxicological effe  | ects   |

| Acute toxicity                                     | May be fatal if swallowed and enters airways.   |   |  |  |
|--|---|---|--|--|

| Partition coefficient n-octan         | ol / water (log ł  | <b>Kow)</b><br>< 1                                  |                    |
| Mobility in soil                      | No data availa   | ble.  |                    |
| Other adverse effects                 | None known.  |   |                    |
| 13. Disposal consideration            | าร   |   |                    |
| Disposal instructions                 | Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of<br>contents/container in accordance with local/regional/national/international regulations.                      |   |                    |
| Local disposal regulations            | Dispose in accordance with all applicable regulations.   |   |                    |
| Hazardous waste code                  | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |   |                    |
| Waste from residues / unused products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |   |                    |
| Contaminated packaging                | Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. Empty containers should be taken to an approved waste handling site for recycling or<br>disposal. |   |                    |

### 14. Transport information

#### DOT

Not regulated as dangerous goods.

### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

#### Transport in bulk according to Not established. Annex II of MARPOL 73/78 and the IBC Code

### 15. Regulatory information

**US federal regulations** 

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

#### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

### Superfund Amendments and Reauthorization Act of 1986 (SARA)

| Hazard categories        | Immediate Hazard - Yes<br>Delayed Hazard - No<br>Fire Hazard - Yes<br>Pressure Hazard - No<br>Reactivity Hazard - No |
|--------------------------|--|
| SARA 302 Extremely hazar | •  |

Not listed.

#### SARA 311/312 Hazardous Yes chemical

#### Other federal regulations

Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List Not regulated. Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130) Not regulated. Safe Drinking Water Act Not regulated. (SDWA) WARNING: This product contains a chemical known to the State of California to cause cancer.

#### **US state regulations**

US. California. Candidate Chemicals List. Safer Consumer Products Regulations (Cal. Code Regs, tit. 22, 69502.3, subd. (a))

Petroleum Oil (CAS 64742-52-5)

#### **International Inventories**

| Country(s) or region        | Inventory name  | On inventory (yes/no)* |
