#### Conforms to HazCom 2012/ United States

## Safety Data Sheet

### Section 1. Identification

**Underseal® Inside Corner Boot GHS** product Identifier

Other means of identification Not available

#### Relevant identified used of the substance or mixtures and uses advised against

The Underseal<sup>®</sup> Inside Corner Boot is a 60-mil combination of rubberized asphalt bonded to polyethylene. The adhesive surface is covered with release liner which will be removed prior to application. It is applied in the inside corner to reinforce and seal the corners of the Underseal® Underslab membrane. Underseal® Inside Corner Boots are designed for use on all inside corners.

Supplier's details Polyguard Products, Inc

4101 South Interstate 45 Ennis, TX 75119 Tel: (214) 515-5000

hours of operation)

### Section 2. Hazards Identification

While this material is not considered hazardous by the OSHA Hazardous Communications **OSHA/HCS status** 

> Standard (49CFR1910.1200), this SDS contains valuable information critical to the safe handling and proper use of the product. This SDS should be retained and available for

employees and other users of this product.

Classification of the substance or

mixture

Not classified

This product is manufactured as an article under the United States Hazard Communication System and is exempted from the regulatory requirements under HCS.

**GHS** label elements

Signal word No signal word

**Hazard statement** No known significant effects or critical hazards.

**Precautionary statements** 

**Prevention** Not applicable Not applicable **Response** Not applicable Storage Not applicable **Disposal** Hazards not otherwise classified None known

## Section 3. Composition/Information on Ingredients

Substance/Mixture Mixture Other means of identification Not available

Ingredient name	%	CAS#
Asphalts	60-80	8052-42-4
Distillates( petroleum), petroleum residues vaccum	60-80	68955-27-1
Hydrogen Sulfide	0.001-0.01	7783-06-4
Limestone	15- 20	1317-65-3
Crystalline Silica, quartz (inpurity)	0.5- 1.5	14808-60-7

The exact percentage (concentration) in the composition has been withheld as a trade secret.

Occupational exposure limits, if available are listed in section 8.

None of the components of this article are in a respirable state.

### **Section 4. First Aid Measures**

Description of necessary first aid

measures.

**Eye contact** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower

eyelids. Check for and remove any contact lenses. Get medical attention if symptoms

occur.

**Inhalation** Because of the nature of this product, inhalation is not a route of exposure.

**Skin contact** Material is in a solid form. If skin contact, wash area with soap and water. Get medical

attention if skin irritation occurs.

**Ingestion** Ingestion is not a route of exposure.

Most important symptoms/effects, acute and delayed

Potential acute health effects

Eye contactNo known significant effects or critical hazardsInhalationNo known significant effects or critical hazardsSkin contactNo known significant effects or critical hazardsIngestionNo known significant effects or critical hazards

**Over-exposure signs/symptoms** 

Eye contactNo known significant effects or critical hazardsInhalationNo known significant effects or critical hazardsSkin contactNo known significant effects or critical hazardsIngestionNo known significant effects or critical hazards

Indication of immediate medical attention and special treatment needed, if necessary.

Notes to physician: Treat symptomatically.

Specific treatments No specific treatment

**Protection of first-aiders**No action shall be taken involving any personal risk or without suitable training.

### **Section 5. Fire-Fighting Measures**

**Extinguishing media** 

Suitable extinguishing media

Use an extinguishing agent suitable for the surrounding fire.

Unsuitable extinguishing media None known

**Specific hazards arising from the**No specific fire or explosion hazard.

chemical

**Hazardous thermal decomposition** Decomposition products may include the following materials:

**products** Carbon Dioxide

Carbon Monoxide Sulfur oxides

Low MW hydrocarbons

**Special protective equipment** Fire-fighters should wear appropriate protective equipment and self-contained breathing

apparatus (SCBA) with a full-face piece operated in a positive pressure mode.

Special protective actions for fire

fighters

Promptly isolate the scene by removing all persons from the vicinity of the incident is there is a fire. No action shall be taken involving any personal risks or without suitable training.

#### **Section 6. Accidental Release Measures**

Personal precautions, protective equipment and emergency procedures.

For non emergency personal Put on appropriate personal protective equipment.

For emergency responders

If specialized clothing is required to deal with the spillage, take note of any information in

Section 8 on suitable and unsuitable materials. See also the information in "For non-

emergency personnel."

**Environmental precautions** Material will not spill.

Methods and materials for containment and cleaning up

Spill Due to the physical state of this material, spills are not possible.

### Section 7. Handling and Storage

**Precautions for safe handling** 

**Protective measures** Put on appropriate personal protective equipment (see Section 8).

Advice on general occupational

hygiene

Eating, drinking and smoking should be prohibited in areas where material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. See section 8 for additional information on hygiene measures.

Conditions for safe storage, including

any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry cool and well-ventilated area away from incompatible materials

(see section 10) and food and drink.

## **Section 8. Exposure Controls/Personal Protection**

#### Occupational exposure limits

Ingredient name	Exposure limits	
Asphalt	NIOSH REL (United States, 10/2016)	
	CEIL: 5 mg/m <sup>3</sup> 15 minutes. Form: fume	
	ACGIH TLV (United States, 3/2019)	
	TWA: 0.5 mg/m <sup>3</sup> , (as benzene soluble aerosol) 8 hours. Form: inhalable fraction.	
Distillates( petroleum), petroleum	None	
residues vaccum		
Hydrogen Sulfide	ACGIH TLV (United States, 3/2018)	
,	TWA: 1 ppm 8 hours	
	STEL: 5 ppm 15 minutes	
	OSHA PEL Z2 ( United States, 2/2013)	
	CEIL:20 ppm	
	AMP: 50 ppm 10 minutes.	
	NIOSH REL (United States, 10/2016)	
	CEIL: 15 mg/m <sup>3</sup> 10 minutes.	
Limestone	NIOSH REL (United States, 10/2016)	
	TWA: 10 mg/m³ (total) TWA 5 mg/m³ (respirable)	
	OSHA PEL ( United States, 2/2013)	
	TWA: 15 mg/m³ (total) TWA 5 mg/m3 ( respirable)	
Crystalline Silica, quartz (inpurity)	NIOSH REL (United States, 10/2016)	
	Ca TWA: 0.05 mg/m <sup>3</sup>	

## **Section 8. Exposure Controls/Personal Protection**

**Appropriate engineering controls**No special ventilation requirements. Good ventilation should be

sufficient to control worker exposure to airborne contaminates.

**Environmental exposure controls** Emissions from ventilation or work process equipment should be checked to ensure they

comply with the requirements of environmental protection legislation.

Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking, and using the lavatory and at the end of the working period. Ensure that

eyewash stations and safety showers are close to the workstation location.

Eye/face protection Safety eyewear complying with an approved standard should be used when risk

assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases

and dusts.

**Skin Protection** 

Hygiene measure

**Hand protection** Chemical- resistant, imprevious gloves complying with an approved standard should be

worn at all times when handling chemical products if a risk assessment indicates this is

necessary.

**Body protection** Personal protective equipment for the body should be selected based on the task being

preformed and the risks involved and should be approved by a specialist before handling

this product.

Not applicable

Other skin protection Appropriate footwear and any additional skin protection measures should be selected

based on the task being preformed and the risks involved and should be approved by a

specialist before handling this product.

**Respiratory protection**Based on the hazard and potential for exposure, select a respirator that meets the

appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

# Section 9. Physical and Chemical Properties

**Appearance** 

**Physical state** Solid Black/White Color Odor Asphaltic(slight) **Odor threshold** Not available Not applicable pН **Melting point** Not available **Boiling point** Not applicable **Flash Point** Not determined **Evaporation rate:** Not applicable Flammability (solid, gas) Not applicable

(flammable) limits

Lower & upper explosive

### Section 10. Stability and Reactivity

**Reactivity**No specific test data related to reactivity available for this product or its

ingredients.

**Chemical stability** This product is stable.

Possibility of hazardous reactions Under normal conditions of storage and use, hazardous reaction will not

occur.

Conditions to avoid: No specific data.

**Incompatible materials** Reactive or incompatible with the following materials: Oxidizing

materials

**Hazardous decomposition products**Under normal conditions of storage and use, hazardous decomposition

products should not be produced.

### **Section 11. Toxicological Information**

## Information on toxicological effects

**Acute toxicity** 

Product/ingredient name	Result	Species	Dose	Exposure
Asphalt	LD50 Oral	Rat	>5000 mg/kg	-
Hydrogen Sulfide	LC50 Inhalation Gas	Rat	444 ppm	4 hours

### **Section 11. Toxicological Information**

#### Delayed and immediate effects and chronic effects from short and long term exposure

**Short term exposure** 

**Potential immediate effects** No known significant effects or critical hazards **Potential delayed effects** No known significant effects or critical hazards

Long term exposure

**Potential immediate effects** No known significant effects or critical hazards No known significant effects or critical hazards Potential delayed effects

**Potential chronic health effects** 

General No known significant effects or critical hazards **Carcinogenicity** No known significant effects or critical hazards Mutagenicity No known significant effects or critical hazards **Teratogenicity** No known significant effects or critical hazards **Developmental effects** No known significant effects or critical hazards **Fertility effects** No known significant effects or critical hazards

**Numerical measures of toxicity** 

**Acute toxicity estimates** There is no data available

### **Section 12. Ecological Information**

#### **Toxicity**

Product/ingredient name	Result	Species	Exposure
Hydrogen Sulfide	Acute EC50 62 μg/L Fresh water	Crustaceans-Gammarus pseudolimnaeus	2 days
	Acute LC50 2 µg/L Fresh water	Fish- Coregonus clupeaformis- Yolk	96 hours
	. 0	Sac fry	

Persistence and degradability There is no data available **Bioaccumulative potential** There is no data available

Mobility in soil

Soil/water partition coefficient (K<sub>OC</sub>) There is no data available.

Other adverse effects No known significant effects or critical hazards

### **Section 13. Disposal Considerations**

#### **Disposal methods**

The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe way. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
