

US EROSION CONTROL PRODUCTS

A DIVISION OF L & M SUPPLY

Straw Wattle Product Data and Specification

Manufacturer: US Erosion Control Products, Inc.; an L & M Supply Company – Phone: 800-948-7870

Product Description

US Erosion manufactures Straw Wattles in addition to a full line of Erosion Control and Landscape Products. Straw Wattles consist of a superior synthetic photodegradable netting engineered for high water flow that is filled with a 100% weed free straw matrix. Straw Wattles are made to filter sediment flow in channels and slopes. The Wattles are made to conform to the surface of the soil and are secured by staking. Straw Wattles can be custom made to meet specific job conditions. The in stock sizes are listed below in Table 1.

Specifications

Each Straw Log is manufactured to the specifications listed below conforming to US Erosion's quality control guidelines. Table 1 provides log dimensions and table 2 provides product characteristics and dimensions. For any other questions relating to log performance data or installation recommendations, contact US Erosion at 800-948-7870.

TABLE 1

DIAMETER X LENGTH	UNIT WEIGHT* LBS	LBS/LIN. FT*
