

The **NATURAL** choice for *all* your **wiping & spill control** needs.

EverSoak® STANDARD Sorbent Pads

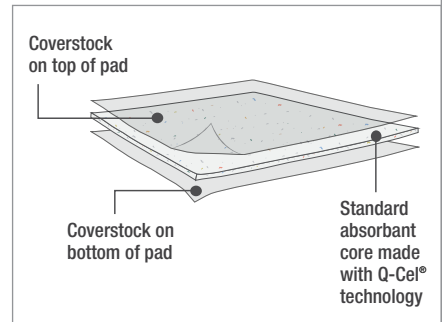

Absorbs up to 29 gallons of oil per bale *

* per ASTM F726-06

Sorbents

STANDARD Sorbent Pads

Made in the USA

- Made with 80% recycled cellulose fibers
- Medium-weight general purpose absorbent pads soak up both oil and water as well as diesel fuel, grease, transmission fluid, hydraulic fluid, coolants, and many other fluids
- Up to 29% more absorbent than the leading competitor's heavy-weight meltblown pad (lab tested per EDANA 10.4-02)
- Ash content is 1.8% per ASTM D482
- 10,840 BTU/lb per ASTM D5468
- Pads have very stable pricing and do not have the volatile costs that are typically associated with oil based absorbents as they are made with recycled fibers
- Class A fire retardant when pad is dry (lab tested per ASTM E84)
- Helps you comply with 29 CFR 1910.22(a) (2)

Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.

STANDARD Pads Outer Case
