

## Sorbents

### Basic Sorbent Roll

Coverstock on top of pad

Absorbent core made with Q-Cel® technology

- ❑ Made with 80% recycled cellulose fibers
- ❑ Light-weight general purpose sorbent rolls soak up both oil and water as well as grease, transmission fluid, hydraulic fluid, coolants, diesel fuel and many other fluids
- ❑ Perforated every 19" across as well as down the center of the length of the roll
- ❑ More absorbent and a more cost effective alternative than oil based polypropylene sorbent rolls
- ❑ Coverstock is only on the top side of the sorbent roll to allow roll to instantly begin soaking up liquid, keep the roll firmly in one place and still have the durability that customers have come to expect from the EVERSOAK® line of sorbents
- ❑ Class A fire retardant when roll is dry (lab tested per ASTM E84)
- ❑ Made in the USA

*Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.*

#### BASIC Sorbent Roll

<b>Product Number:</b>	22884
