

DuraSoak™ Series General Purpose Heavy-Duty Split Rolls

What's Inside:

DuraSoak™ General Purpose Absorbents start with excess material from our popular shop towels

Absorbs up to 21.2 gallons of oil per roll*

*per ASTM F726-06

Made in the U.S.A.

- Made with 65% recycled shop towel fibers
- Meltblown-spunbond coverstock on both sides of the absorbent core creates very durable sorbent rolls
- Absorbs both oil and water as well as grease, transmission fluid, hydraulic fluid, diesel fuel, coolants and many other fluids
- Made with minimal oil derivatives allowing for stable pricing unlike meltblown sorbent rolls that can have very volatile pricing because the raw material costs involved in making meltblown polypropylene rolls are tied to the price of oil

- Class A fire retardant when roll is dry (lab tested per ASTM E84)
- DuraSoak™ Heavy-Duty Absorbent Split Rolls are perforated every 19" across
- Ash content is 0.75% per ASTM D240
- 13,380 BTU/lb per ASTM D240

Caution: Not intended for use with aggressive acids or caustics. Dispose of all sorbent materials in accordance with local, state and federal regulations.

General Purpose Absorbents

Sellers General Purpose ToolBox® DuraSoak™ pads not only provide more absorbency (see charts on individual product pages) than other popular competitive meltblown sorbents, they're made with recycled fibers (see chart) to create greater price stability. And with our recycled fibers being made from our internal excess wiper material, DuraSoak™ provides amazing product consistency.
