

## Sorbents Universal Pillows

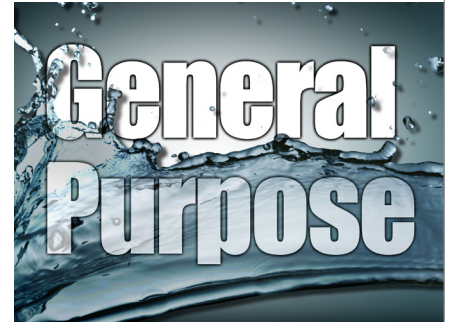

- Sorbent Pillows are an economical choice for soaking up leaks and drips around machinery and other MRO (maintenance, repair and operations) applications
- For steady, localized leaks and drips place a sorbent pillow inside of the drip pan to keep liquids from getting to the floor and allowing for easier disposal
- Made with recycled cellulose fibers and are great for absorbing both oil and water, as well as grease, transmission fluid, hydraulic fluid, coolants and many other types of liquids
- Each case contains 20 sorbent pillows and 10 drip pans

*Caution: Not for use with aggressive acids or caustics. Dispose of all sorbent material according to local, state and federal regulations.*
