

SikaBiresin[®] CR72

(Formerly Adtech Marine 820)
EPOXY LAMINATION SYSTEM

Quick Notes

PRODUCT POSITION STATEMENT

SikaBiresin[®] CR72 is a convenient trowelable epoxy filler developed for fairing large surface imperfections on aluminum, steel, fiberglass or wooden marine vessels.

PRODUCT TECHNOLOGY

- Two-component epoxy lamination system

APPLICATION

- High performance marine boats, parts, and tooling applications
- Suitable for wet layup and vacuum-bagging

PRODUCT BENEFITS

- Longer open time options
- Multiple (3) hardener choices depending on open time needed
- Higher physical properties
- Higher thermal properties
- Less brittle at room temp
- Improved wet-out

BUILDING TRUST
